

CHAPTER 2

SELF MANAGEMENT SKILLS

INFORMATION TECHNOLOGY (402)
ARTIFICIAL INTELLIGENCE (417)

L - 2

ABILITY TO WORK INDEPENDENTLY

An independent person is aware of his or her actions and don't rely on anybody. They take initiatives rather than waiting for anyone's order. They tend to work and give maximum result with their capacity and ability.

ABILITY TO WORK INDEPENDENTLY

Working independently is a very important and strong skill that we need and we have to become self - aware , self - motivated and self - sufficient .

ABILITY TO WORK INDEPENDENTLY

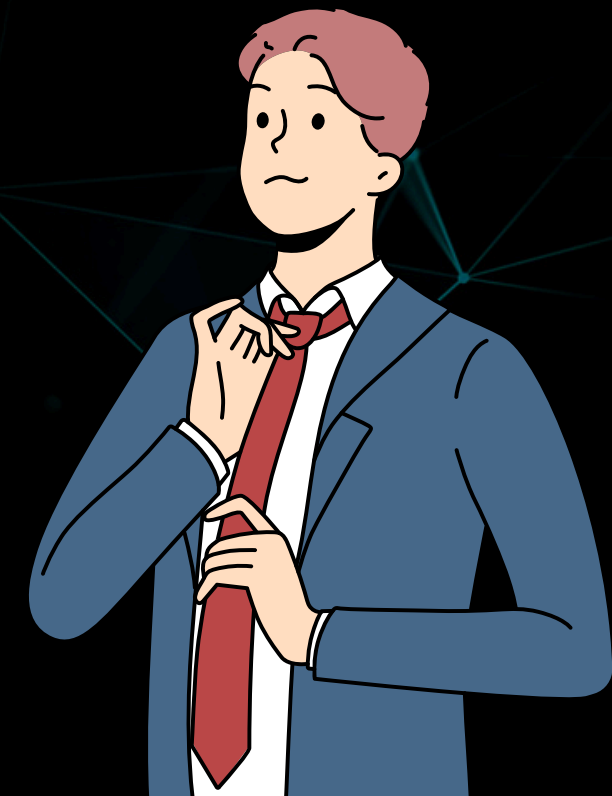

To become self independent you should be aware of your own learning , working style. We need independence as we work and ought to give the best within our own pace.

ABILITY TO WORK INDEPENDENTLY

Advantages of working independently :

- Self - worth
- Confidence
- Self - motivation
- Self - reliant
- Emotionally independent

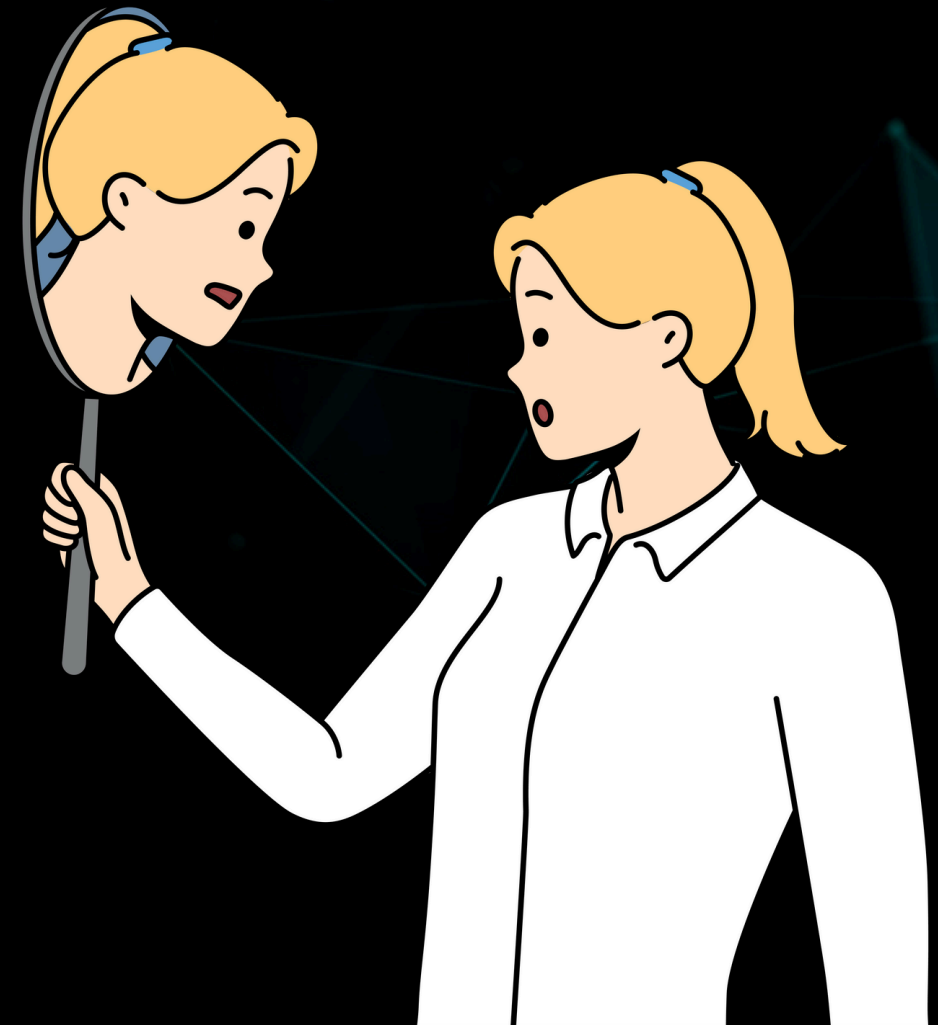

NECESSARY SKILLS FOR INDEPENDENT WORKING

- A person should be ready to correct himself or herself to grow further.
- Should be open to learning and work hard.
- Not letting negative thoughts or self doubt bother within.

SELF - AWARENESS

Self awareness refers to the understanding of ourselves . Which includes our beliefs , emotions , knowledge , abilities , capacities , likes and dislikes.

TYPES OF SELF - AWARENESS

There are mainly two types :

1. Internal Self - Awareness

By internal self - awareness we get to know about our real inner self. The emotions , values , feelings , thoughts , our weakness and strengths.

2. External Self - Awareness

External self - awareness deals with all the feelings and behaviour with others. Judging other behaviour towards you making you understand better.

DEVELOPMENT OF SELF - AWARENESS

In some areas development is needed continuously to be self - aware

- **About your strengths :** To find your strength knowing what you like to do , your interest and enthusiasm is important and what work of yours get complemented by others.

DEVELOPMENT OF SELF - AWARENESS

- About your weaknesses : work in which you feel stuck or bothered by doing it is your weakness. Taking help or others or by preparing yourself for that particular task can help.
- About your flaws : everyone has some flaws within them. You should not hide your flaws but take other people's help in overcoming them.

DEVELOPMENT OF SELF - AWARENESS

- About your emotional problems : some emotional problems can lead to random burst of anger , frustration on small matters. These emotion problems should be in your control so that they randomly don't get triggered.

Question : We should not hide our _____ but take other people's
_____ in overcoming them.

SELF - MOTIVATION

Self motivation refers to your ability to identify your flaws or your weak points and making yourself to take some actions on them. Some individuals are highly self - motivated while other require external deadlines or motivation.

A common barrier is procrastination : (**Only thinking about it without taking any actions to improve**)

SELF - REGULATION

Self - regulation focuses on your ability to influence personal and profession improvement based on your self - awareness.
It helps in controlling your thoughts , your ideas , emotions etc.

OTHER IMPORTANT FACTORS FOR SELF - MANAGEMENT

Responsibility - Ownership of your own mistakes and completing given task.

Time management - Knowing value of your time.

Adaptability - Ready to always update and gain knowledge.
