

CHAPTER 1

COMMUNICATION SKILLS - II

INFORMATION TECHNOLOGY (402)
ARTIFICIAL INTELLIGENCE (417)

Communication

Communication word comes from a latin word "communicare" , meaning " to - share ".

Communication skills are essential for understanding , impression , making personal and professional relations , conveying ideas and much more. Can be done in various forms:

Verbal

Non - verbal

Written

Visual

Communication

Communication skills are also essential to work in any organization. For example : while interview they prefer / like a candidate who gives more than a one - word answer , listen carefully , demonstrate the answer. Further with the help of non - verbal communication such as good - posture , eye contact and 'active' listening is also critical in an interview.

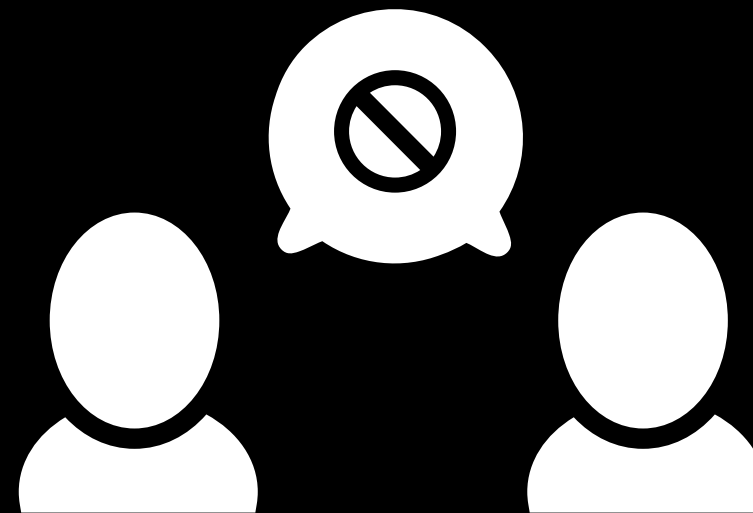

Methods Of Communication

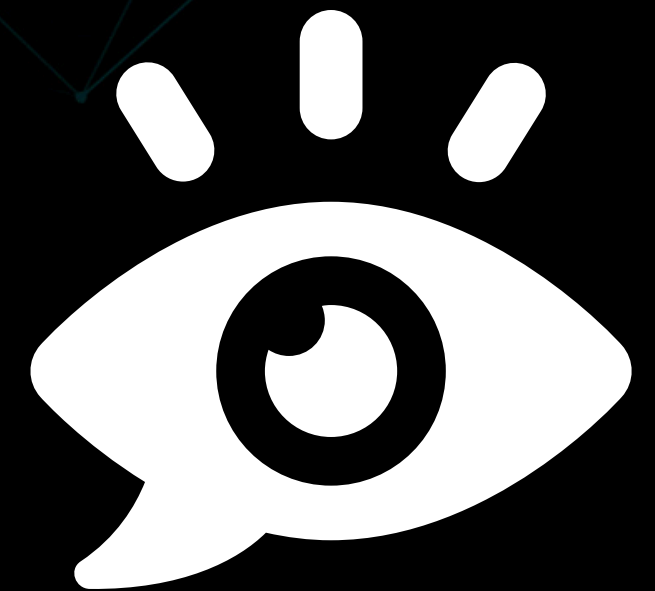

Verbal communication

Non - verbal communication

Visual communication

Methods Of Communication

Verbal communication

Verbal communication is the most popular mode that involves the use of language to express thoughts and ideas. Language is the important tool of verbal communication. Effective verbal communication is crucial for personal and professional success, listen actively, and build strong relationships.

Methods Of Communication

Verbal communication

Two primary mediums of verbal communication

- Oral communication
- Written communication

Methods Of Communication

Oral Communication

Oral communication is the common medium which refers to speaking or vocal terms to convey your message to the receiver. For example : Video calls , presentations , speeches , or through mediums like video conferencing etc.

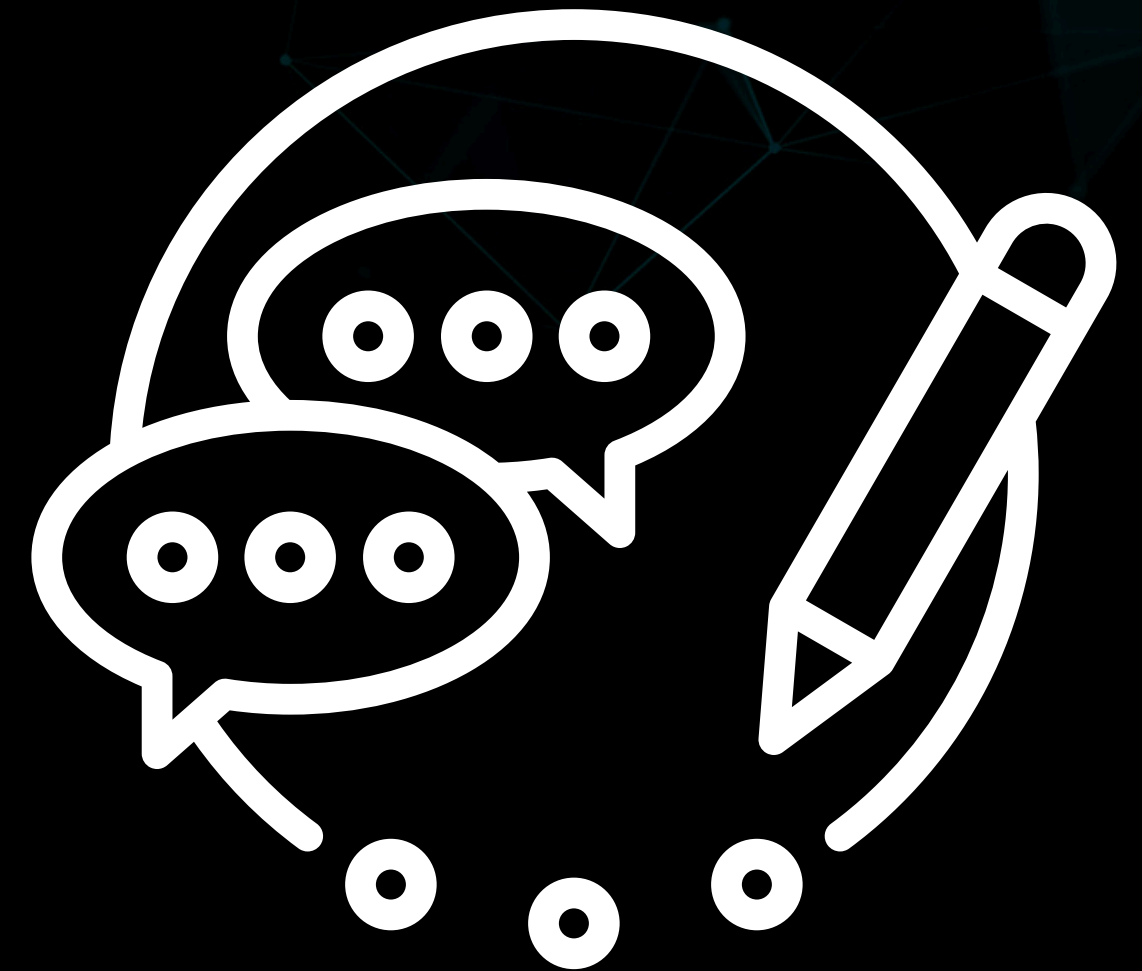

Methods Of Communication

Written Communication

Written communication is the medium which refers to conveying your message to the receiver in written or textual terms. Correct words , composition and sentences makes an effective written communication.

For example : Whatsapp , emails , messenger etc.

Advantages vs Disadvantages

Verbal Communication

- **Saves time in communication**
- **Reliable method**
- **Easy and Quick**
- **Provides complete understanding**
- **Cheaper way and saves money**

- **No validity**
- **Language barrier**
- **No permanent record**
- **Not suitable for lengthy message**
- **Issues with distant people**

Methods Of Communication

Non - Verbal Communication

Non - verbal communication refers to conveying messages without words, using gestures , facial expressions, body language, and posture to express emotions or thoughts.

It depends on different forms like symbols , expressions that express your emotions and sentiments. It also complements "verbal - communication"

Advantages vs Disadvantages

Non - Verbal Communication

- **Serve as substitute for verbal communication**
- **Helpful in communication with illiterate people**
- **Shows real emotion while conversation**
- **Real connection**

- **Without language it cannot convey the real meaning**
- **Can be confusing**
- **Long conversation are not possible**
- **Not suitable for lengthy message**

Methods Of Communication

Visual - Communication

Visual communication conveys information in forms that can be seen. It is also known as graphic communication. It includes graphic design , animation , books , prints etc.

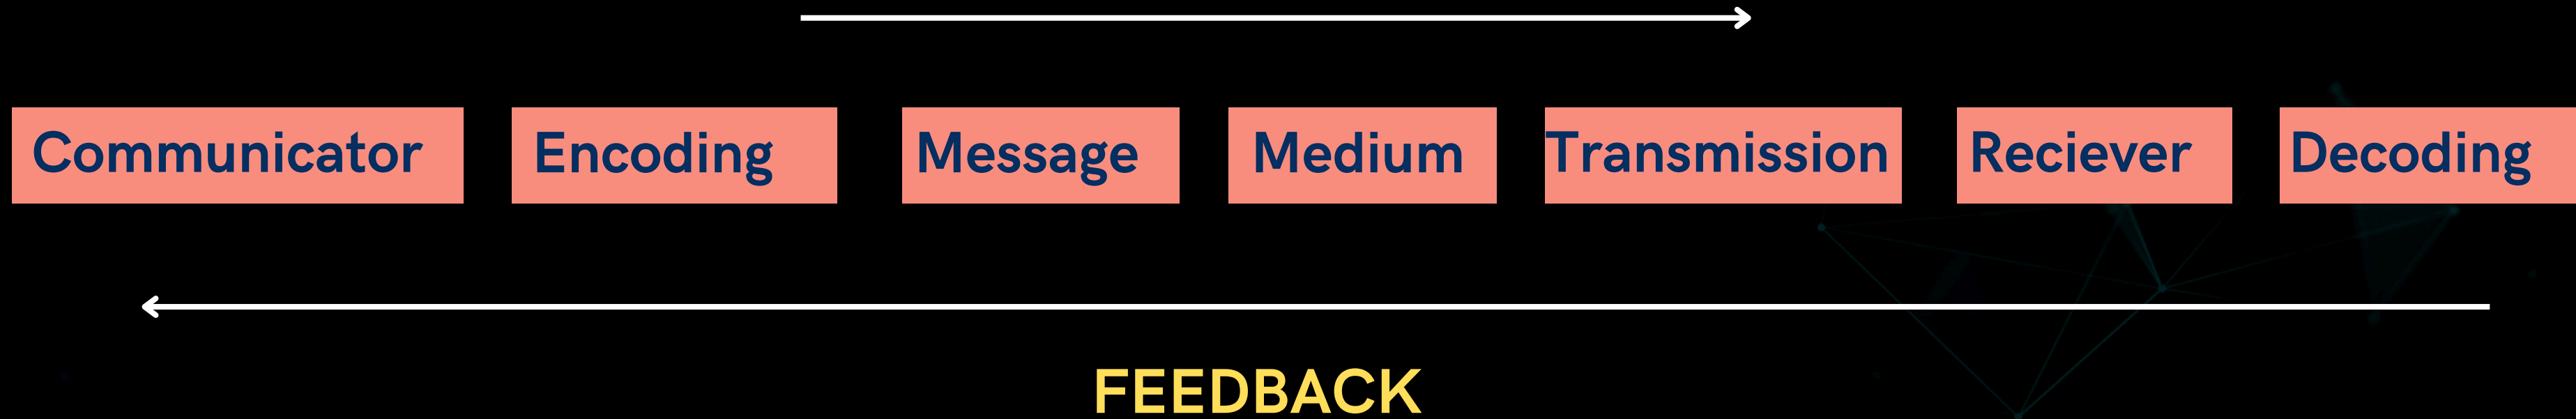

Advantages vs Disadvantages

Visual - Communication

- More interacting
- Can be used for presentation and complex idea sharing
- Clarity in oral communication
- For uneducated receiver

- Not useful for detailed information
- Could be misinterpreted
- Costly to prepare (paper cost)
- Some information cannot be communicated visually eg : policy , rules.

Communication Cycle

Communication Cycle

Communicator

Communicator or sender is the person who decides how will the message express , sent and who is it to be sent to.

Encoding

Means to change the message in suitable form of sending. (Culture difference , language)

Message

Actual information that sender conveys to reciever

Medium

Or channel is the means where the message will get sent.

Transmission

Of message describes one - way process in which sender encodes to one who decodes it.

Reciever

Is the person whom the message is sent.

Decoding

Reciever interprets and understands the message. Errors in decoding occur during noise, encoding inaccuracies, etc.

Feedback

Reciever's response to the message.

Meaning And Importance Of Feedback

Feedback is the final and important step of the communication cycle. It is the receiver's response to the sender message after decoding it. Which enables the sender to evaluate the effectiveness of the message sent. With the help of feedbacks misunderstandings and misinterpretations can be resolved quickly without fail. For instance, supervisor must ask after explaining the work to the workers to get better results.

Meaning And Importance Of Feedback

Types of feedback

There are some important feedback in communication cycle as follows :-

Descriptive feedback :- It provides meaningful information in a detailed , explained way which also consist some analysis or suggestion etc.

Specific feedback :- Specific feedback talks about a thing or particularly without talking about a general overview.

Non Specific feedback :- The non - specific feedback on other hand talks about entire thing while giving a general overview.
